FYI:

Great News:

1. The Board approved a proposal for rehabbing the last 4 park-owned mobiles (505, 607,610, 612) in the sell/rehab program.

2. The Board also accepted an offer from former residents, Bud & Pat Raineri, for the new home, 705.

The Dumpsters

A few tips:

1. The 2 dumpsters closest to the mailroom (north end of the dumpster area) are for recycling only.....NO GARBAGE and please, NO PLASTIC BAGS or PLASTIC WRAP....they will clog the recycling machinery. The list of acceptable items is posted on the front of these dumpsters.

2. The 8th street dumpster is meant for yard waste and construction debris. Other items are okay, but because this is an open container, NO GARBAGE should be put here. (We are subject to fining by the city for improper disposal of garbage.)

3. Electronics and hazardous waste can be taken to the city recycling center on the last Wednesday of each month or to the county facility...open six days a week.
